ENGLISH MAKE BETTER FILMS

LONDON, Nov. 18.—(By the Associated Press.)—British film producers, after more than three years when he answered, I said. "Helio, senator." After I had talked awhile. I turned the phone over to another who wished to converse with this same acquaintance. This man addressed as "gudge" the same acquaintance I addressed as "senator" and as it happens the acquaintance is neither a judge nor a senator.

We all claim to be good democratic citizens, yet we like to bestow and carry titles of some sort instead of saying, Mr. So-and-So, we feel better if we have called him judge, colonel or professor. Once a lawyer has been or professor. Once a lawyer has been or professor. ("Hello, judge," is one of the easiest greetings to express and bears no taint of formality. One feels better acquainted with a man who can be addressed as "Hello, ludge," and the same can be said about the title "colonel."

When a physician is popularly known as "doc" you get a mental picture of him and have an insight into his character even before you meet thim. To be called "doctor" is one thing and to be called "doc" but not always with the one who must always wear the longer handled title.

Adenendance Priss. British film of unsuccessful effort awith which they claim they will be able to compete with have been in other countries.

The result of the sale to compete with have been and have an insight into his character even before you meet thing the possibility of getting unlimited even and the market, and have met with public approval, despite the bad reputation which

public approval, despite the bad reputation which earlier English films have merited.

have merited.

A dependence on America and other foreign countries for exhibition purposes owing to the limited field offered by the British isles has been the only stumbling block to British producers, but they believe this is being overcome by the formation of a company for handling productions in other countries. A number of productions planned for next year include several works of English masters, such as Dickens, Tennyson and ters, such as Dickens, Tennyson and

The exorbitant prices asked for the rental of American productions will have to be cut, according to the general belief of producers or suffer seriously from the new competition.

LEAVES ARMY

Pershing's Chief of Staff Takes Presidency of Radio Corporation

General James G. Harbord, deputy chief of staff, who came up from the ranks to the position of being General Pershing's right hand man in France, announced his retirement from the United States army tonight, effective December 29, next. General Harbord will become presi-dent of the Radio corporation of America after his retirement. EXPLAINS STEP

"I have received an offer of the presidency of the Radio corporation of America, which i believe I should accept,' said General Harbord's letter of resignation.
"This seems to me to afford an op-

portunity for important constructive work, looking to the domination of air communication by America through better understanding between peoples promising progress toward more per-In accepting his resignation, Secre-tary of War Weeks, said: "General Harbord's retirement is a

loss to the active forces of the army, which cannot be adequately expressed have not in our military or in our government service in any capacity, a man of higher qualities or one who has inspired in others a greater degree of confidence.' SERVED 34 YEARS

General Harbord has served 34 years in the army, 16 of which was in foreign service. Born in Illinois, in 1866, he was educated in Kansas thools and enlisted in the army in

He fought his way upward from the ranks and when Pershing went to France in 1917, Harbord accompanled him as chief of staff, a position which he held during much of the time of difficult organization work in the American Expeditionary forces

density. Newly arrived Americans, groping through the soupy atmosphere complain that they cannot see the time of day on Big Ben.

After hearing this familiar explanation over and over again, the Americans are beginning to believe that perhaps there is some truth in it, and consequently try to make the best of what they consider an endurable sit-

pended over the city and environs.
